

AN ABS GROUP COMPANY

Event Library

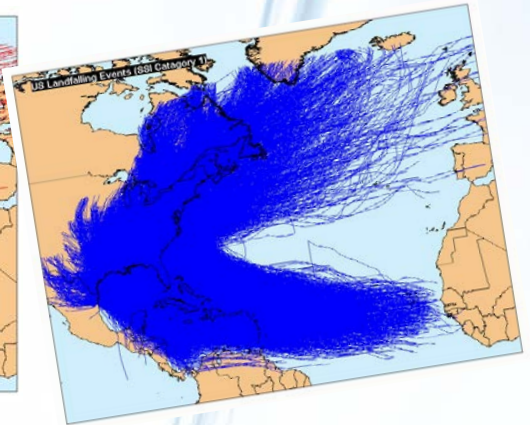

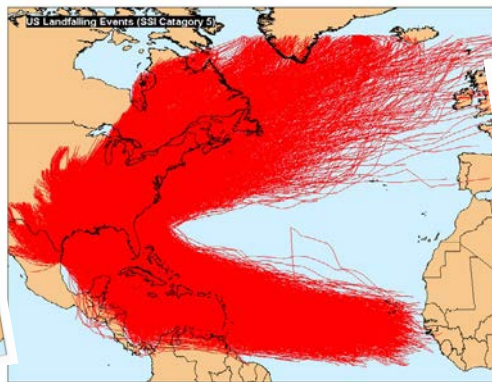

The EOECAT Event Library provides licensees of EOECAT's Insured Loss Database (ILD) products with detailed event/storm track characteristics of stochastic events for:

This companion offering to EOECAT's ILD provides licensees with:

- An enhanced capability to understand the spatial nature of EOECAT's stochastic event sets
- A deeper understanding of the risk posed by the perils
- Additional information that can be used to filter events with specific track characteristics
- The ability to plot storm tracks with GIS tools
- Additional insight into potential industry losses during live-cat storms

US Hurricane

Japan Typhoon

- EOECAT Event ID's
- Node ID
- Node Location (Latitude / Longitude)
- Wind Speed @ Node (1-min sustained in mph)
- RMX at Node (km)
- Pressure at Node (mb)
