THURSDAY, JUNE 13, 2002

8:30 AM - 2:30 PM - Formal Sessions and Workshops

Afternoon - Recreation

FRIDAY, JUNE 14, 2002

8:30 AM - 2:30 PM - Formal Sessions and Workshops

KEY TOPICS TO BE COVERED:

Developments in natural hazards catastrophe modelling

The latest developments in EQECAT's natural hazards models:

- *WORLD*CAT*enterprise*: What is behind the new model, what has changed, what will change in the months to come, how to use the software to your best advantage.
 - Flood, Hail, Winter storms

Recent changes and how they affect modelling:

- Weather changes, global warming - do they affect the models and results?
- Earthquake modelling: Impact of incorporating time dependency, changes in EQECAT's model.

The New Risk Landscape -

Understanding Potential Threats to Your Business

- The tools and techniques to manage risk: Risk selection and engineering, Dynamic Financial Analysis, Securitization, etc.
- Presentation of EQECAT's modelling of urban risks, terrorism, worker's compensation, political risks.

These topics will be addresses through formal sessions, question and answer sessions, and demonstration workshops.
